

Youth Stewards Volunteer Program – High School

Stulsaft Park

January–April 2024

[Grassroots Ecology](#) invites local high school students to apply to our Youth Stewards volunteer cohort at [Stulsaft Park \(Redwood City\)](#). Approximate meeting location is linked. Youth Stewards will have the opportunity to meet new friends, learn about nature from expert staff, enhance their observation skills, and help restore local California woodland, creekside and grassland ecosystems through planting, weeding, mulching, and more. This is a 10-week volunteer and educational experience for local high school students, with no mandatory number of sessions required for participation.

Learn more about our other middle school, high school, and college [Youth Stewards volunteer cohorts](#).

The Youth Stewards high school volunteer cohort at Stulsaft Park will meet on **Wednesday** afternoons, from **3:30 PM-5:30 PM (2 hours)** on the following dates:

Visit Grassroots Ecology's ["Stulsaft Park" page](#) to learn more about the ecosystems and accessibility considerations.

Requirements

- High school student
- Reliable transportation to and from volunteer site each week to arrive on time
- Motivated, curious, and positive attitude about working outdoors
- Excited to work in a group setting, follow safety expectations, and show respect toward wildlife and other participants
- Enjoy spending time outdoors, including in hot and exposed or wet and cold conditions, with energy to engage in manual labor tasks for 1 to 2 hours at a time
- Must complete an interest form and online liability waiver before volunteering

How to Participate

- Fill out the [volunteer interest form](#). Students will be notified of the next steps to participate via email.
- We anticipate the number of interested students to exceed our capacity. Complete the interest form as early as possible!
- Questions? Contact Community Engagement Manager, Valerie Lee, at volunteer@grassrootsecology.org.
